- Hand Pump operated flush system.
- Modern Fleet maintained to the highest of standards.
- DDA Compliant.
- Ground Level access for wheelchair Users.
- 24/7 emergency support

Accessible Toilets are essential for events of any size, and often a legal requirement. We offer DDA Compliant Units to accompany any of our other toilets or individually when required. Our Accessible unit boasts a wider door for easy access, room to manoeuvre a wheelchair once inside and a hand sanitiser dispenser conveniently positioned on departure of the unit. Leave the setup to us, on arrival a member of our expert team will advise and install in your chosen position, and collect at a time that suits you.

We Recommend at least 1 accessible toilet for every 2000 people attending your event. For Non-ticketed events, accessible toilets are not a legal requirement, but should be considered if you are aware of attendees with specific needs.

Baby Change option Available Upon Request.
