

On-Site Attendant

- Experienced Male and Female teams.
- Flexible working hours
- Clean, stocked Toilets Throughout the duration of your event.

All of our units arrive spotlessly clean, Fully stocked and ready to use.

However, Hiring our highly experienced Toilet Attendants will help to keep them fresh for the duration of your event. In our opinion this service is crucial to providing a 5 star sanitation service at your event.

We have extensive experience working at both small and large scale events. This knowledge allows us to advise the correct number of attendants needed.

Each team of attendants will always be provided with a team leader, this is great for production teams giving a point of contact on-site at all times. We can supply attendants with stock of consumables, or you can provide the stock for them to use.
