

## IBC Tank

- 1000l capacity
- Skid mounted for ease of movement around site
- Large 6" top opening for emptying of caravan and camping equipment.
- On-site emptying service available

1000l IBC Tanks are a popular choice for both camping and festival sites. The tanks are compact enough to be moved around when empty, fitting into the smallest of areas.

We offer these tanks for effluent and grey waste. They have a large 6" top opening to allow for emptying of caravan and camping toilets.

Servicing of the IBC container is easily arranged, we have multiple service vehicles of different sizes to accommodate most scenarios.

Larger waste tanks also available.
