

## Waste Tanks

- Waste tanks from 1000-20,000 litres.
- Hire and servicing available throughout.
- Plumbing and Install to your units also available.

Waste tanks for effluent and grey waste can be hired for long and short term hire. We are also able to install these to our units or they are available for dry hire.

We have a range of sizes available to suit all requirements and spaces available to site them. All tank dimensions are available on request.

Emptying of our waste tanks can be arranged to suit your needs, this can be done daily, weekly or throughout the duration of your event.
