

VACANT EVENT HIRE

3000 Gallon Tanker

- 3000 gallon wet waste capacity.
- Fully Trained and qualified operative's.
- Cess pit waste removal services.
- 24/7 Emergency Call out.
- E.A Approved waste carrier.

At Vacant Event Hire we operate a modern fleet of Vacuum tankers. These come in an array of sizes ranging from 220-3000 Gallons. Vacuum tankers are available for all your wet waste requirements. From blocked drains, flood water and of course wet waste from events. The 3000 gallon tankers are a necessity for large scale events. All of our tankers also carry fresh water onboard.

These vehicles meet the euro 6 emission standards and so are compliant for the London low emission zones and other city centres that require the same standards. They are also required to Have a DVS (direct vision standard) certificate for safety of cyclists, pedestrians and vehicles travelling on the left side of the vehicle in common blind spots.

We can cover all wet waste requirements, Available 24/7 for emergency call outs. Our services range from drainage at residential or commercial premises, cess pit waste removal, Flood water, other hire companies equipment and of course our own fleet of portable toilets, showers and waste tanks.

A Tanker and operatives can be booked for standby at your event. We offer advice and sanitation plans to suit your individual requirements.

All waste removed by our vacuum tankers is disposed of at a registered waste transfer site. Vacant Event hire are registered with the Environment Agency and licensed to carry and dispose of all waste.
